# GARIMA SINGH

Senior UI Developer

## ABOUT ME

I'm a front end developer with fifteen years of experience in web development. I've worked on a variety of projects for clients in the banking and e-commerce industries. I'm **passionate about creating great user experiences and have a strong understanding of usability and accessibility standards.**

## WORK EXPERIENCE

### Senior UI Developer
**Lloyds Banking Group - Mortgage & Motor Finance**

**Oct 2021-July 2023**
Virtusa UK Limited

Responsibilities:
- Designed and developed form-based websites using React, enabling efficient capturing of user input and secure data flow to downstream processes.
- Implemented Single Sign-On (SSO) functionality using Azure AD for seamless authentication and authorization of bank colleagues.
- Utilized Docker to containerize the application for deployment on OpenShift Container Platform.
- Mentored junior team members, providing guidance and support in their professional development.
- Collaborated with UX designers to ensure an intuitive and visually appealing user interface.
- Conducted Proof of Concepts (POCs) to evaluate and finalize the best-suited React libraries for form handling and Redux integration.

### Lead UI Developer
**Metro Bank - Personal and Business Account**

**Feb 2018 - Oct 2021**
Capgemini UK PLC

Responsibilities:
- Utilized Angular to design, develop and maintain portals for online account opening for personal and business accounts, ensuring a seamless and user-friendly experience.
- Utilized Backbase features to enable business users to change website copy without requiring a deployment cycle, providing flexibility and reducing dependency on development resources.
- Designed and developed a comprehensive style guide that maintained uniformity across various Angular portals within the bank's websites.
- Significantly enhanced test case coverage, reaching 90% to ensure robust code quality and minimize potential issues.
- Achieved accessibility standards of AA throughout the portal and AAA compliance where feasible, ensuring inclusivity for all users.
- Implemented Hotjar to analyse user behaviour and optimize the user journey for improved engagement and conversions.
- Conducted A/B testing in collaboration with UX designers to finalize the best user journey.
- Maintained the technical backlog, prioritizing and managing tasks to ensure efficient project execution.
- Mentored junior team members.

### Senior Developer
**HSBC - HSBC CMB**

**Aug 2016 - Jan 2018**
Capgemini UK PLC

Responsibilities:
- Successfully migrated the old HSBC UK CMB website to the BackBase platform, enabling easy management and maintenance by business users.
- Integrated HSBC with accounting software such as Xero using OAuth, facilitating seamless data exchange and improving financial processes.
- Ensured adherence to accessibility standards throughout the migration process, making the website inclusive and user-friendly for all individuals.

## Team Leader

**Barclays - iPortal**

**Jun 2015 - May 2016**

Capgemini India  PVt LTD

Responsibilities:

- Developed a portal using AngularJS that served as a single point of access for all business needs for Barclays customers, providing a seamless and centralized experience.
- Created and maintained Barclays' custom component library, ensuring consistency and reusability across different web applications.
- Played a key role in enhancing and maintaining UX standards, collaborating closely with UX designers to deliver intuitive and user-friendly interfaces.
- Led a geographically dispersed team of 20 UI developers, providing guidance, mentorship, and ensuring successful project execution.
- Oversaw project planning, resource allocation, and performance monitoring to ensure timely delivery of high-quality web applications.

## Developer

**Bank of America - BOA-ML**

**Apr 2012 - Apr 2015**

Synechron Technologies

Responsibilities:

- Utilized HTML5 to develop a static website for the bank, ensuring a modern and visually appealing online presence.   Integrated the website with CQ5(now called AEM), a content management system, to enable seamless content updates and management.
- Maintained pixel perfection across major devices, ensuring a consistent user experience across different screen sizes.
- Worked in an Agile methodology, collaborating with cross-functional teams to deliver iterative and highquality web solutions.
- Actively participated in sprint planning, daily stand-ups, and sprint reviews to ensure project milestones were achieved on time.

## Developer

**Digital River - Digital River**

**Jun 2008 Mar 2012**

Cybage Software Pvt Ltd

Responsibilities:

- Developed websites for Digital River's end clients, focusing on creating intuitive and user-friendly interfaces to enhance the online shopping experience.
- Led the rebranding efforts by applying CSS styling and Photoshop skills to revamp and modernize outdated websites, resulting in an improved brand presence.
- Acted as a subject matter expert on jQuery, providing training and mentoring to new team members to enhance their skills and promote best practices.
- Collaborated closely with cross-functional teams to gather requirements, implement custom functionalities, and ensure timely delivery of high-quality websites.
